(CLAHRC South London)

Collaboration for Leadership in
Applied Health Research and Care
North Thames

CLAHRC North Thames has joined colleagues at CLAHRC North West London (NWL) and CLAHRC South London to present the Brian Turley Awards for Patient and Carer Involvement

[Winners have been announced! Click here to see who the winners and runners up were in each category](#)

The three London CLAHRCs are proud to present these awards, created to celebrate and promote patient and carer involvement in healthcare research and improvement. The awards honour the memory of Brian Turley, a dedicated and committed patient advocate and disability rights campaigner who sadly died unexpectedly in February 2016.

The awards honour the contribution

***of Brian Turley a tireless patient
advocate and campaigner for
disability rights***

The awards aim to celebrate and promote patient and carer involvement in healthcare research and improvement - aiming to

- Raise the profile of involvement
- Showcase examples from practice
- Promote reflection and shared learning
- Discourage 'tick box practice'

For all three awards, we welcome nominations from teams and individuals who are **actively** and **currently** involved or working with patients/carers and the wider community.

Winners will get the chance to work with artist Sandra Howgate to develop materials of their choice - a picture, flyer, poster or other graphic that represents their work
