

The [NIHR CLAHRC North Thames Academy](#) has just opened applications for its next short course - **Introduction to Evaluation**, to be held on June 13, 2017.

***Do you need to demonstrate the impact of projects in your organisation?
Do you want to improve the design and implementation of your programmes?
Are you tasked with carrying out an evaluation, but don't know where to start?***

This one day, hands-on **Introduction to Evaluation** workshop addresses these challenges, and covers the skills and knowledge needed to undertake your own evaluation of a local programme or service. Aimed at staff from NHS Trusts, CCGs and Local Authorities, this workshop requires no previous experience of study design, statistics or evaluation.

To find out more about this one day course and how to apply, please [click here](#).
