

Lucie Hogger is Clinical Lead Speech and Language Therapist at Whittington Health and working with adults with acquired communication and swallowing disorders. She is spending one year as a CLAHRC HEE NCEL pre-doctoral fellow exploring the interactions between people living with dementia who take multiple medications and their health care professionals as part of the APOLLO-MM project <http://www.polypharmacy.org.uk/>.

Lucie has 10 years of experience working in the NHS and completed an MSc in Neuroscience and Communication at UCL in 2017. Her interests are in discourse analysis, neurological disorders and rehabilitation.
